

JENTEK[®] Sensors

GS9000[™]

"The Leader in Eddy Current Testing Performance."

FULLY PARALLEL IMPEDANCE INSTRUMENTS

19, 39, 79-channel, and larger configurations available

19-channel

39-channel

79-channel

SPECIFICATIONS

- ✓ Rapid wide area scanning
- ✓ 19, 39, and 79 channel MWM-Arrays
- ✓ Battery packs for portable operation
- ✓ System configuration up to 395-channels +
- ✓ Surface and sub-surface crack detection, corrosion imaging, coating characterization, and material property mapping

GS9000 for Weld Inspection/ Crack Detection

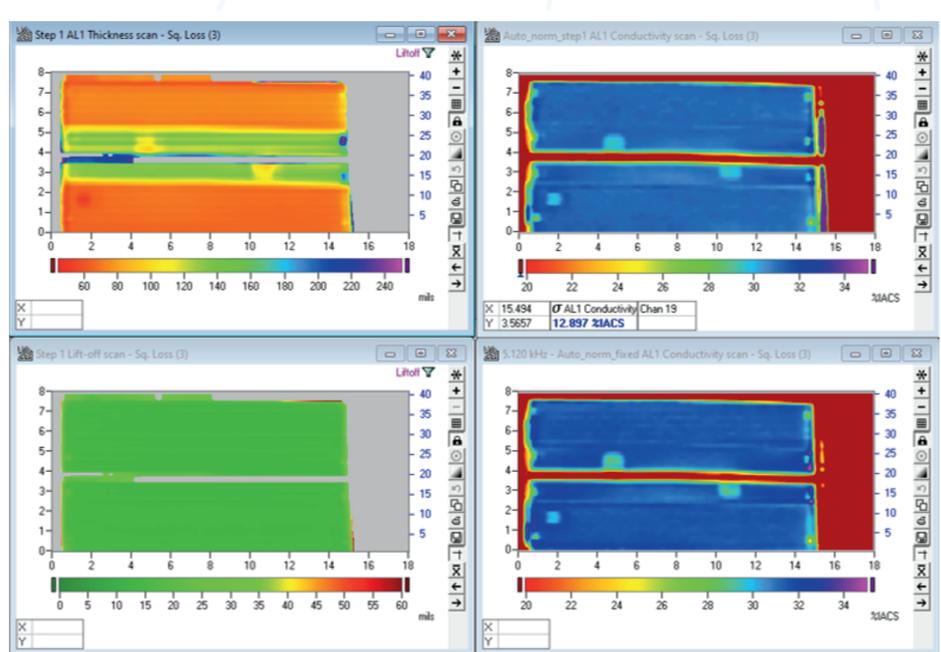

±45° MWM-Arrays

GS9000 for Automated Internal Surface Tube and Pipe Scanner

- ✓ 39-channel GS9000 MWM-Array
- ✓ Helical Scan Path
- ✓ 1ft/min Scan Time
- ✓ Crack Detection
- ✓ Coating Characterization
- ✓ Conductivity and Thickness
- ✓ Coated-Uncoated Tubes
- ✓ 120-180mm Diameter Range

Corrosion Loss Imaging

GS9000 for Corrosion Imaging
